

Who is Deposita®?

Deposita® Systems is a South African registered innovation-led payment system solution provider for the secure collection & validation of banknotes within retail & banking environments.

The Deposita® Automated Banking Machine (ABM®) registers each banknote deposited, whilst the Deposita® Data Centre records & reconciles each deposit transaction. Details of all transactions are immediately accessible via the user friendly web portal.

Value offering

- An automated electronic cash management solution;
- Note count & validation at point of tender;
- Electronic settlement of the value collected into the client's nominated bank account;
- On site and in-transit risk mitigation (terms and conditions apply);
- Multiple banking facilities;
- "One-Stop-Shop" – Provide complete value chain.

deposita 5000

Africa's Leading Cash Management Solution

Reliability

The ABM® provides one of the highest acceptance rates in the industry.

Easy

The ABM® makes cash transactions faster, easier, safer and more reliable than ever before.

Value

The ABM® delivers the highest quality & security at great value for money and reduces associated cash costs.

Improved Productivity

The ABM® will improve operational efficiency, reduce operational costs & increase customer satisfaction.

Security

High security-advanced algorithms reduce the acceptance of counterfeit currency & ensure consistent high quality recognition.

Reduce Shrink

Increased control of the cash handling process frees staff resources for more business orientated services.

Risk

Effective management of risk both onsite and in transit.

Deposit Identification

The ABM® identifies all deposits per depositor.

Software Upgrades

The ABM® features a reprogrammable flash memory with remote downloadable software updates.

Maintenance

The modular design of the ABM® makes it easier to install, service & maintain.

Reports

Electronic itemised cash deposit reports & history of all related deposit transactions, accessible via a user friendly web portal.
